

MIT MENA  
CAREER FAIR

2015

# Welcome!

Welcome to the first annual MIT MENA Career Fair! As the organizing board, we have put a lot of thought into selecting the most exciting and compelling companies that are heading the new industrial and economical boom in the Middle East and North Africa.

Organizing an event such as this would not have been possible without the support of our sponsors. We'd like to extend our thanks to the MIT Arab Students Organization and to MIT Global Education & Career Development.

Our goal is to introduce the MENA region as a fast growing and lucrative market of opportunities for students interested in what the region has to offer economically, culturally, and historically. We hope that this year's MIT MENA Career Fair will be a testament to how diverse the job market can really be.

Wishing you luck in the job search,

## Description

Strategy& is the new brand for Booz & Company, the dominant premium consulting firm in the Middle East that introduced the profession to the region over two decades ago. Strategy& inherits Booz & Company's brand values of integrity and complete commitment to helping our clients excel.

Strategy&'s history in the Middle East is powerful. Since the 1993 launch of its operations in the region, the firm has established an impressive record, with its commitment to top-quality service and investment in talented staff. Today, we serve clients across the entire Middle East region from six regional offices, inspired by the opportunities and economic growth fueled by the liberalization and restructuring of many industries in the area.

We've always been known as practical strategists who roll up our sleeves to help clients get the job done. We've distilled an approach to strategy based on 100 years of management advice that starts with the premise that a few differentiating capabilities drive identity and success. We help our clients identify and build those capabilities, develop strategies based on them, and deliver value by executing those strategies well. Now backed by the strength and scale of the PwC network, we are driving even greater impact.
